Phil Potter ME ’16 is an instructional designer who collaborates with educators and experts to develop professional training solutions, online courses and curriculum.

The online Master of Education in Learning Design and Technology (LDT online) program, designed for working professionals and delivered in a live virtual classroom, will help you gain the skills to design, develop and evaluate learning and instruction in a variety of contexts. Learn to apply current research in learning and motivation to enhance performance outcomes in P-12, higher education, military, nonprofit, corporate and other settings.

During the program, you will design a learning product, for a real-world setting, that demonstrates effective application of theories and concepts.
Through the LDT online program, you will enhance your capacity to:

- Put research-based learning design principles to practical use.
- Work in a variety of learning settings.
- Master face-to-face, technology-enabled and blended-learning formats.
- Incorporate effective media to support learning.
- Significantly improve learning and performance outcomes.
- Evaluate the impact of different designs on learning and motivation.

ONLINE LEARNING ENVIRONMENT
In the program, you will interact with student colleagues and faculty both synchronously (live sessions occurring in real time) and asynchronously (content experiences and assignments submitted via the learning management system). The live sessions are facilitated by faculty and include highly interactive, engaging and collaborative small-group discussions.
